# Disability Insurance

Provides a monthly benefit if you are disabled from a sickness or off-the-job injury

## Think About This

Just over 1 in 4 of today's 20-year-olds will become disabled before they retire<sup>†</sup>

More than 40% of Americans cannot afford to pay an unexpected \$500 medical bill<sup>\*\*</sup>

Injuries such as fractures, sprains and strains are the most common short-term disability claims<sup>†</sup>

If you get sick or have an accident, you may not be able to work for some time — and your monthly bills won't wait for you to recover. Disability Insurance can help you replace your lost income and protect your financial health.

### Here's How It Works

- Select a monthly benefit to meet the needs of you and your family
- If totally disabled and can't work, you receive a monthly cash benefit
- You receive a monthly cash benefit via check or direct deposit that you can use however you wish

### Protecting Your Finances

You've worked hard for your savings – don't let a disability wipe them out.

- Protect your checking and savings
- Don't dip into your 401(k)

### Meeting Your Needs

- Benefits start the first day after your elimination (waiting) period, when totally disabled and you cannot work
- Premiums are affordable and can be conveniently payroll deducted
- Coverage may go with you if you leave your job or employer cancels coverage\*
